2032 OXFORDSHIRE ANCESTORS' ASSEMBLY

Creator/Caretaker.....StuartCandy
 Date of Creation.....2022
 Medium.....Research
 Medium.....Engagement

As part of Imagination is a Commons, Designed specifically for Roman Krznaric during the 2021 United Nations Development Programme, Development and Its Futures, the project consisted of 'a thank you for service letter' in the 2032 Oxfordshire Ancestors' Assembly, and a robe as ritually worn by participants when deliberating the potential impacts of their decisions on future generations.

SS _____ DD2035

Southern Sweden _Deep_ Design Days 2035

What if SSDD prioritised depth over scale? What would a design festival look like to celebrate non-extractive, sustainable practices? What will a regenerative festival give more than it takes? What are we flourishing? What infrastructure do we need? Would it still be a few consecutive days of the year?

Southern Sweden _Multispecies_ Design Days 2035

Who is still not in the room of SSDD in 2035? Could SSDD serve everyone: humans, other planetary species and non-living entities? What role can design take in our ecology? What events would there be? And who will be invited – and how?

Southern Sweden _Civic_ Design Days 2035

What could design is given its political agency? What if SSDD became Malmö's design parliament, what are some of the topics need discussing in 2035 or that design can offer meaningful changes or at least unique and nuance insights? Or could the SSDD take place at the Sweden Parliament?

Southern Sweden _Hyperreal_ Design Days 2035

What if SSDD is entirely online? How would digital culture, attention economy and artificial intelligence influence the role of design? Would design be needed? Or vice versa, what would design need? Would the days turn into weeks, or months? How would it be streamed or engaged?

Do we even need physical objects?

Southern Sweden _Hyperlocal_ Design Days 2035

What if SSDD is entirely local? What if SSDD only exists to serve its local residents and community? What role would design take? Would design take a more generous and humble position? Who would be our partners? Could SSDD take place in our living rooms? Or in our local cafe or pubs? What is something that is only possible here and impossible to replicate elsewhere?

Southern Sweden _Retrospective_ Design Days 2025

What would a SSDD look like reflecting from 2035 and celebrating its 15 years history? How we got here from 2021? Who were the key figures? What have changed? What were or are still the major challenges in 2035? What are some of the versions for 2050, the 30th edition of SSDD?
